

**WALLED LAKE COMMUNITY EDUCATION
2025 BASEBALL/SOFTBALL/SOCCER FIELD USAGE SCHEDULE
DATES FOR SPRING/SUMMER ALLOCATIONS APRIL 15TH- JULY 1ST**

All fields are allocated to the specific league or organization. Allocations to each team are done by the approved organization. Each organization must have a Liaison to the district. No coaches are given fields. The organizations are allocated fields based on their insurance approval and the number of district participants.

LEAGUES:

Some of the fields are unlined and some schools have goals and others do not. Please do not line any fields without approval from WLCSD Community Education. Unlined areas are for public use on a first come basis.

Please remember the buildings are not open. Also, please don't drive on the grass. Keep all cars in the parking lot and carry equipment. Be sure to remove all equipment and restore fields to original condition. Please keep in mind, the fields are intended for physical education curriculum first. The responsibilities of the Community Ed Department are to allocate based on the number of participants and verify insurance. The Community Ed Department then issues allocations to the Liaison for each league. Please distribute copies of the allocations to your coaches. Coaches in turn should have their copies on hand at all practices. This should help to eliminate any on site confusion.

Any District fields not listed below are not available for used under the allocation process. They must be rented or are closed for community use.

Thank you,

Lizzi McNamara
Director of Community Education and Recreation
